MIGUEL SANCHEZ

CCNA-Certified Network Technician | Cisco Network Infrastructure & Hardware

St. Catharines, ON | (289) 931-8004 | sirkronos@hotmail.com | linkedin.com/in/miguel-sanchez-4389851b7

SUMMARY

CCNA-certified network professional with 5 years inside Cisco Systems supporting network infrastructure programs for enterprise and utility customers such as Walmart and Duke Energy. Deep working knowledge of Cisco hardware (routers, switches, chassis, SFP optics, fiber and copper cabling, racks and power supplies) gained planning Duke Energy's multi-state network refresh. Hands-on lab experience configuring and troubleshooting switching, routing, network services and security. Earlier experience leading telecom field-service operations for Claro and providing IT help desk support. Permanent resident with own vehicle, ready for on-site, NOC or field roles.

CERTIFICATIONS

Cisco Certified Network Associate (CCNA 200-301) | Cisco | November 2026

TECHNICAL SKILLS

- **Networking:** TCP/IP, IPv4/IPv6 subnetting, VLANs and 802.1Q, STP/RSTP, EtherChannel, OSPFv2, static routing, FHRP (HSRP), NAT/PAT, DHCP, DNS, NTP, Syslog, SNMP, QoS fundamentals
- **Security:** ACLs, port security, DHCP snooping, Dynamic ARP Inspection, SSH hardening, AAA concepts (TACACS+/RADIUS), WPA2/WPA3
- **Wireless:** WLC and lightweight AP architecture (CAPWAP), AP modes, WLAN configuration
- **Hardware:** Cisco routers, Catalyst switches, chassis and modules, SFP optics, single-mode and multimode fiber, connectors, racks and power supplies
- **Tools:** Cisco Packet Tracer, Jira, IBM Maximo, NAPS, Power BI, Tableau, Excel (VBA), Python, SQL, Confluence, Smartsheet

HANDS-ON LAB PRACTICE (CISCO PACKET TRACER)

- Built and troubleshot multi-VLAN campus topologies: 802.1Q trunks, Rapid PVST+ root/port tuning, LACP EtherChannel, router-on-a-stick and SVI inter-VLAN routing.
- Configured single-area OSPFv2 (router ID, cost, passive interfaces, default-route origination), static and floating static routes, IPv4/IPv6 addressing.
- Deployed network services and security: DHCP server and relay, PAT, SSH-only management, standard/extended ACLs, port security, DHCP snooping and DAI.

PROFESSIONAL EXPERIENCE

Inventory Project Manager — **Apr 2024 – Feb 2026**

Cisco Systems (via Experis / Veritaaq Technology House) — *Remote, Canada*

- Planned and tracked all network hardware for Duke Energy's multi-state network infrastructure refresh, covering substation and generation-site networks across six US states.
- Specified routers, switches, chassis, SFP optics, fiber and copper cabling, racks and power supplies against engineering designs; built standardized data sheets and validated device scope with network engineers.
- Found outdated equipment costs and currency effects in the program forecast and rebuilt it, correcting projected hardware spend by $1M.
- Built a VBA tool that consolidates hardware data from technical designs, cutting data intake from 1 week to 2 days.
- Proposed and helped scope a software refresh alongside the hardware program, creating an additional revenue-generating project for Cisco.

Project Specialist — **Mar 2021 – Feb 2024**

Cisco Systems (via The Select Group & Capgemini) — *Remote, Canada & Colombia*

- Coordinated 10+ IT and network projects for Cisco Premier accounts, including Walmart and Duke Energy, across the United States and Central America.
- Tracked project scope, milestones and financials; consolidated multiple data sources into automated Tableau and Jira dashboards.
- Led project meetings and knowledge-transfer sessions for cross-functional teams of 15+ engineers and stakeholders.
- Migrated all project documentation and milestones from Smartsheet to Jira, with automated workflows for tracking.

BI Customer Service Analyst **Dec 2018 – Jan 2020**
Close Up International *Bogotá, Colombia*

- Provided first-line technical support and troubleshooting for enterprise clients using the company's data platforms.
- Automated data reconciliation and reporting with Excel macros and fuzzy matching, significantly reducing manual work.

EARLIER EXPERIENCE (BOGOTÁ, COLOMBIA)

Service Disconnections Engineer (Team Lead), Claro SIAO account **Jan 2016 – Aug 2017**
Outsourcing SAS *Bogotá, Colombia*

- Led a 5-person remote team managing Claro home internet, TV and phone disconnection orders in SIAO, Claro's field-operations platform.
- Assigned daily workload, monitored field technicians' routes and ran quality control on completed work.
- Reported equipment-recovery KPIs (modems, set-top boxes) to Claro and ensured returned devices re-entered inventory.

Service Disconnections Specialist, Telmex/Claro SIAO account **Apr 2014 – Oct 2015**
Outsourcing SAS *Bogotá, Colombia*

- Monitored disconnection orders in SIAO, tracked field technicians and produced daily operational reports.

Technical Support Analyst (Help Desk) **Dec 2012 – Jun 2013**
Open English *Bogotá, Colombia*

- Provided full-time technical support to students on the online learning platform, resolving access, configuration and account issues.

EDUCATION

Diploma, Computer Programming and Analysis (2 years) | Niagara College, Welland, ON | May 2023

Diploma, Information Systems Development and Analysis (2 years) | SENA, Bogotá, Colombia | Nov 2019

ADDITIONAL INFORMATION

- Canadian Permanent Resident | Ontario driver's licence (G2) and own vehicle | Open to on-site work, travel and relocation
- Languages: English (fluent), Spanish (native), French (beginner)
